The world's largest ski area

WHAT'S NEW ON THE PISTES SEASON 19-20

NEW INFRASTRUCTURES

EVEN MORE GUARANTEED SKIING...

THANKS TO A MIX OF WATER AND AIR!

Guaranteeing the largest number of linked, open pistes in Europe: this is the promise made by the 3 Valleys, an engagement continued each season thanks to the high-altitude domain with an abundance of snow and equipped with over 2500 snow making machines covering more than 50% of the ski area. An obvious choice for a dream ski destination which guarantees top quality skiing from the start until the end of the season: Méribel and the 3 Valleys!

THE MÉRIBEL MOTTARET SALES & ADVICE OFFICE HAS A NEW LOOK!

Space, light and a warm welcome, with new open plan desks and information in real time: the sales team will welcome you every day in this relaxing space to share their knowledge of the ski area and help you to choose the best ski pass for you and your group!

Always keen to please our visitors, Méribel is investing to improve snow making across all sectors of the valley. After having recently doubled snow making capacity thanks to the reservoirs at Altiport and Combes, 5 new pistes benefit this year from snow making equipment, notably Bouvreuil Rouge, Mûres Rouge, the base of Combe du Vallon and the Choucas run, accessible via the recently added Cherferie lift.

.... AND EVEN MORE PISTES!

THE ROC DE FER IMPROVEMENTS CONTINUE

After the addition of 2 new chairlifts last year, the ambitious investment plan in preparation for the arrival of the World Alpine Ski Championships in 2023 continues.

Scheduled for this year: 2 new pistes opening ! This winter, simply turn right at the top of the Legends chairlift and you'll be at the heart of the latest additions!

HEAD FOR THE RED - 2 NEW PISTES

Previously coloured in shades of blue, the Roc de Fer sector will add a tint of red this winter with 2 new unmissable pistes.

The "Gypaète", accessible via the Cherferie chairlift, offers a more challenging variation of the Choucas piste. With the terrain left as natural as possible, this piste certainly has a more playful characteristic than its neighbour: numerous bumps and banks lead to a series of hairpins before joining the blue Roc de Fer piste.

Why not combine it with the Olympic chairlift to reach to the summit of the Roc de Fer to take in the 360° views? Next, discover the red "Daguet" by beginning the famous black "La Face" then taking a left at the end of the first big wall where you'll find yourself on "Daguet", the second new red piste which cruises down the virgin slope before meeting the forest edge, far away from the hubbub of the main ski area. At the end of the run, a crossroads allows you to ski down to Le Raffort via the piste of the same name to take the Olympe gondola, or to head to Les Allues by the red Villages.

SKI AND FUN

FAMILY COOL MAKE YOUR CHILDREN'S EYES SPARKLE!

Nestled in the peaceful Altiport sector, the Family Cool area is a veritable treasure trove for families, full of easy slopes and fantastic fun areas. It's also a place where the Inuit entertainers are on hand all season long to delight children! Once again this year, the Inuits have dug deep to conjure up more new games and activities. And the warm-hearted Inuits can always produce a little souvenir for well-behaved children!

During school holidays the programme is especially full, with birds of prey shows, biathlon experiences, ice sculptures, giant inflatables and lots of surprises. And all this, for free!

Activities in the Inuit village outside school holidays: Wednesdays, Fridays and Sundays. During school holidays, activities are every day except Saturdays.

LA SAULIRE BY NIGHT SKI BY THE LIGHT OF THE MOON

An exceptional evening with a magical descent from the summit of La Saulire, one of the iconic mountains of Méribel.

The experience includes a private lift in the gondola, an aperitif whilst watching the sun set over the peaks, then a descent on skis - guided by the light of your flaming torch and the local pisteurs - on a piste which has been freshly groomed for your small group. A friendly welcome and an enchanting atmosphere will make unique memories in the mountains!

ELEMENTS PARK TRY FREESTYLE BY THE TOUGNETE LAKE

Ever keen to promote the pleasure of skiing, here you'll find at the tips of your skis the four distinct but complementary elements of the universe !

Let yourself fly down the 'whoops' and enjoy the element of air. Fire will warm your knees on the blue fun slope: whizz round hairpins and bumps, through arches and past giant foam characters! For water, you'll move up a level to the red boarder-cross where you'll feel the thrill of surfing the waves.

The fantastic new feature for the earth element resides in the Mini-Zone, which allows budding freestylers find their feet but stay grounded in total safety. We've added a tour around the edge of the Tougnette lake (at the top of the Legends chairlift) which offers an amazing viewpoint over the valley and makes for a safer experience in this dedicated beginner snowpark zone.

YETI PARK

A NEW BASE CAMP FOR OUR ADORABLE MASCOT

Yeti Park, THE favourite piste of all the kids, will feature new surprises once again!

This winter we've added a 'no skis' area on the lower part of the park where youngsters can blow Himalayan horns, run around the temple bedecked with flags or simply relax on a deck chair and enjoy a snack.

WILD SPACES AND COSY SNUGS

FAN OF A COMFY PISTE-SIDE PIT-STOP? DISCOVER THE CABINS DOTTED AROUND THE SKI AREA

- At the heart of the peaceful clearing on the Pic Bleu from the Col de la Loze
- At the base of the Biche piste from the summit of La Saulire, where the cabin has a gorgeous terrace from which to admire the valley views
- Seek out the romantic retreats around the ski area: heart-shaped dens perfect for a cosy rest with a view (at the top of Legends chairlift, in the Inuit village, in DC Area 43 and at Plan des Mains)

BACK TO THE WILD ADVENTURES IN MERIBEL'S WILDERNESS

A high-altitude environment, north-facing slopes guaranteeing great snow conditions, two of the most magical, off-the-beaten-track slopes in the valley and a freeride space to explore... Rendez-vous in the Mont de la Challe sector, accessed by the Roc de Tougne chairlift to enjoy this 'back to nature' space which is ideal for good skiers who love to carve up black and red pistes or experience the joys of freeride on an accessible slope!

DON'T MISS

- The wooden 'Back to the Wild' sculpture for a unique photo backdrop
- The log cabins for an authentic mountain refuge picnic - which one will you choose? 'Cabane des Trappeurs' or the new 'Refuge' at the bottom of the Lagopède piste? The first contains everything you need to refuel and warm up: benches, tables, glove-warmers, smartphone chargers and, of course, a panoramic view over the stunning peaks. The latter offers a fabulous outdoor space, perfect for sunny days on the mountain.
